ONLINE BACKUP

Host-it
Cloud Computing Solutions

WHY BACKUP ONLINE?

SOFTWARE CORRUPTION
Software corruption or program error is probably the best known form of data loss.

VIRUSES, SPYWARE AND HACKERS
Protect your data from these threats.

DRIVE FAILURE
Up to 13% of hard drives crash in their first year. Hard drives that are over five years old have a 6% chance of failing.

ACCIDENTIAL DELETION
43% of people lose irreplaceable files every year

THEFT
Only 3 out of every 100 stolen laptops are recovered.

DISASTER
Vital data is lost every year primarily through accidental deletion. Other factors that contribute to data loss include e-crime, theft, fires, floods, and other disasters.

COMPLIANCE
Host it can help you address legislation surrounding data backup archival and compliance. Our solution meets many compliance standard requirements and enables your company to adhere to the directives in the acts that apply to it.

Protect Your Data

Data is your most valuable asset! Traditional PC and Server backup is expensive, time consuming and unreliable. Restoration of files is often problematic. Research shows that 50% of companies that lose a substantial amount of their critical data in a disaster never reopen for business. Backup Vault from Host-it brings you our online backup service that performs seamlessly in the background. Infinitely superior to traditional backups on tape or disk, you don't need to rely on error-sensitive media or carry out manual actions. Backup Vault from Host-it automatically creates backups that are instantly encrypted and stored offsite in our data centres. All your data is available for retrieval 24/7. There are no capex costs to you. Backup Vault scales with your business whatever its size. Backup Vault also helps you address the compliance legislation for your industry. So if you want peace of mind that your data is secure visit our website at www.host-it.ie and try us for free!

Benefits of Online Backup
